

Garner helps you grow your commercial business and retain at-risk renewals by delivering guaranteed savings and richer benefits with no plan disruption.

Garner is a simple plan addition that drives members to top-performing in-network doctors without disrupting health plan operations or network contracts.

1 Garner measures doctor quality and efficiency more accurately than ever before.

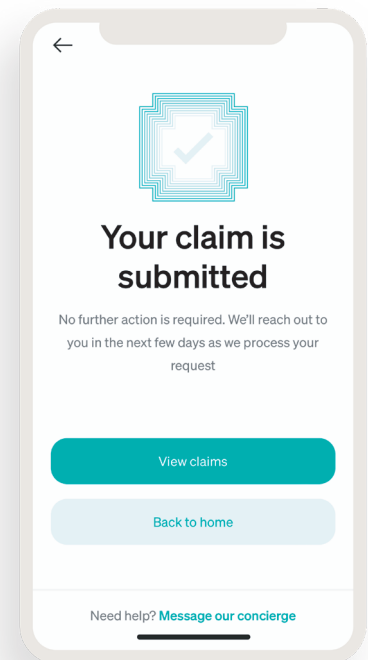

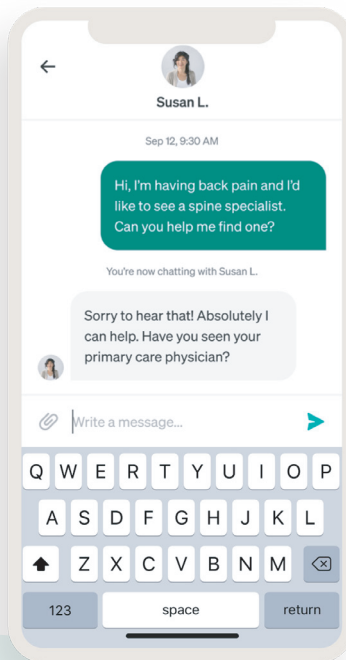

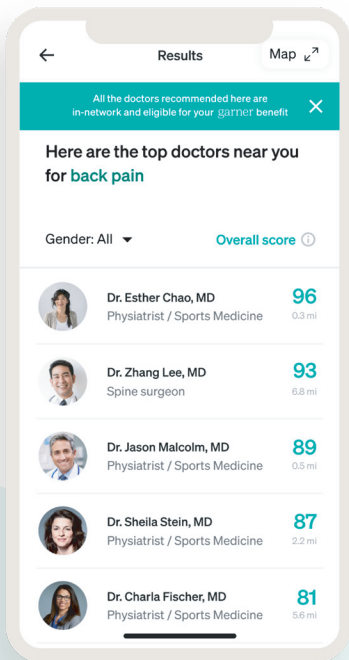

We have assembled the largest multi-payer claims database in the country with more than 310 million patients. We use this dataset and over 500 individual metrics to measure the health and cost outcomes generated by doctors.

2 Our Concierge team and doctor search tool make it easier to find top-performing doctors who are in your existing networks.

Members can access our Concierge via phone, mobile and web for personal help finding a doctor and navigating the healthcare system.

3 Garner generates unparalleled engagement using innovative incentive accounts that pay members' out-of-pocket medical bills.

When members see a top-performing doctor, our engagement-based HRA covers out-of-pocket medical bills, enriching your plan while generating savings.

- Works for both fully insured and self-funded plans
- Reduce total claims costs by an average of 27% per episode of care
- Deliver guaranteed 10-20% savings without cost-shifting
- 98% of members have a positive experience with Garner
- Seamless implementation with no change to internal operations
